

Flex Plugs (GG)

The GG product range consists of ergonomically designed plugs with a handle, offering easy grip and removal, even with working gloves. It ensures excellent protection due to a small ventilation cut out on each of the flange. This ventilation cut out allows internal pressure to be released, which enables to keep the plug in the original position.

Applications:

GG range is recommended for protection of different types of pipes.

Main features:

Ideal solution for different types of pipes

Suitable for Pipes segment

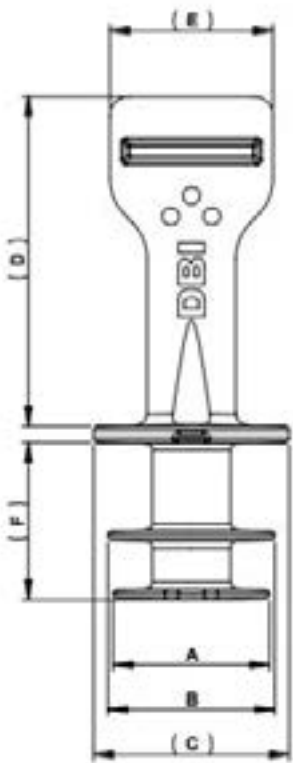

Excellent protection thanks to the ventilation feature

Made of RECYCLE LDPE

Easy mounting & dismantling

Properties

Standard colour: Red- Other colors may be available upon request
Standard material: RECYCLE LDPE
