

Cylindrical Caps with Ribs (GV)

Protection cap with grip that makes the product easy to pull off and universal for a wider range of fitting dimensions. Ribs also provide excess pressure release if necessary. Available in soft material, making the cap more flexible to meet customer requirements.

Applications:

GV range is recommended for protection of male brake and fuel connectors. Some of them fit perfectly to common rail applications.

Main features:

- 

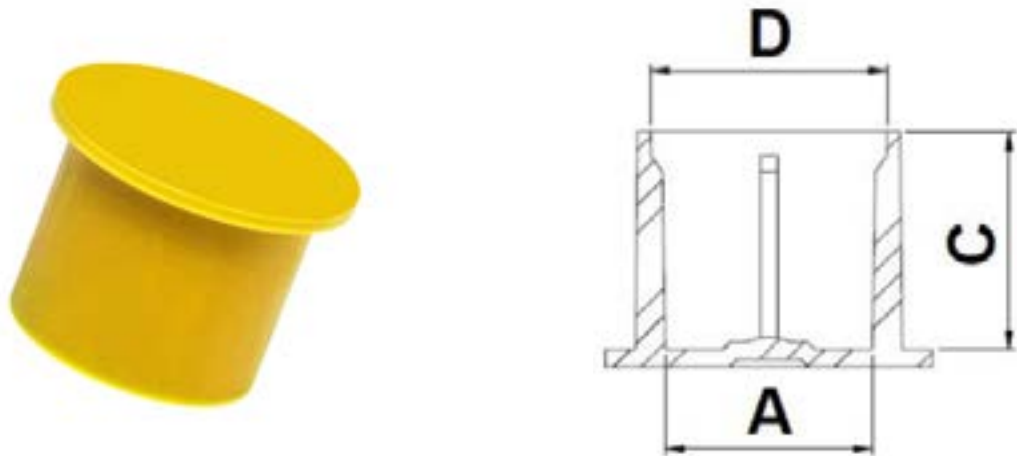

Ideal solution for male brake & fuel connectors
- 

Suitable for Automotive segment
- 

Universal for a wider range of fitting dimensions
- 

Made of RECYCLE LDPE, HDPE, EVA
- 

Easy mounting & dismounting

Properties

Standard colour: Yellow- Other colors may be available upon request
Standard material: RECYCLE LDPE
