

Long Cylindrical Protectors (ML)

The ML type is highly suitable for hydraulic applications, especially for sealing small tubes with external UNC thread. It is the same tube as the MA range, but longer. It has an internal rib, which gives good tightness and is ergonomic.

Applications:

ML range is recommended for sealing small tubes with external UNC thread and additionally protects the shaft end and common rail sensors against impact.

Main features:

Ideal solution for small tubes with external UNC thread

Suitable for Hydraulics segment

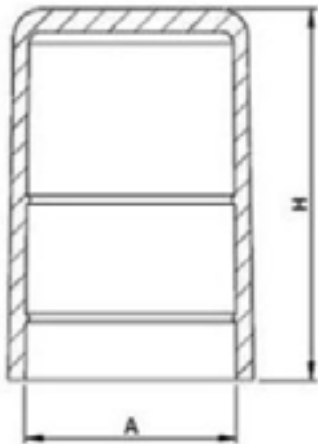

Excellent protection & tightness thanks to an internal rib

Made of RECYCLE LDPE & EVA

Easy mounting & dismantling

Properties

Standard colour: Yellow - Other colors may be available upon request
Standard material: RECYCLE LDPE

DBI Ref.	A mm	H mm	QTY Bag/Box
