

Metric Threaded Plugs (TA)

Threaded plugs that effectively protect internal threads in hydraulic components are particularly appreciated for their tightness and quality. These products are available in various materials and with different sealing solutions, depending on the high-temperature requirements. Hexagonal shape to secure easy mounting and dismounting using standard automatic or semiautomatic tools. Flanges come in various diameters to ensure better masking. In this range some parts are available with washer or O-ring.

Applications:

TA range is recommended for protection of hydraulic and steering components tested under pressure.

Main features:

Ideal solution for internal threads

Suitable for Hydraulics segment

Excellent protection due to the sealing solutions

Made of RECYCLE LDPE, HDPE & PA66

Hexagonal shape for easy mounting & dismounting

Properties

Standard colour: Yellow- Other colors may be available upon request
Standard material: RECYCLE LDPE
