

# Center Pull-Out Caps (GA)

The GA product range consists of newly designed caps for protection of different studs, nipples and pipes. The caps are highly flexible and designed to absorb a wide range of tolerances, due to the material used, wall thickness optimisation and the inside ribs with the deformation zones.

## Applications:

GA range is recommended for protection of different studs, nipples and pipes, covering a broad range of applications in various industries.

## Main features:

Ideal solution for studs, nipples & pipes

Suitable for Automotive segment

High material flexibility

Made of RECYCLE LDPE, EVA & BIO EVA

Easy mounting & dismantling

## Properties

**Standard colour:** Yellow- Other colors may be available upon request

**Standard material:** EVA
