

Flex Caps (CM)

Flexcap is a unique protection cap giving a dust-tight seal on fuel and brake tubes. The design means that the plug is suitable for several sizes of tubes and is easy to fit and remove. Having no flange, it is not easily dislodged when tubes are bundled.

Applications:

CM range is recommended for protection of fuel and brake tubes.

Main features:

Ideal solution for fuel & brake tubes

Suitable for Automotive segment

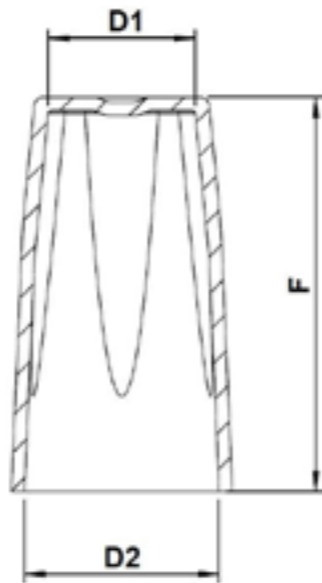

Excellent sealing properties

Made of RECYCLE LDPE

Easy mounting & dismounting

Properties

Standard colour: Yellow- Other colors may be available upon request

Standard material: RECYCLE LDPE
