

Ergoline Plugs (DD)

The oval shape of the pull ring ensures a good hold on the plugs. As the pull rings lay tight to the plug, they are not easily dislodged when tubes are bundled. The Ergoline type DD can be removed easily and quickly using two fingers and no tools.

Applications:

DD range is recommended for protection of several applications, such as rubber hoses, air condition systems, heat exchangers.

Main features:

Ideal solution for rubber hoses, air condition & heating systems

Suitable for Automotive segment

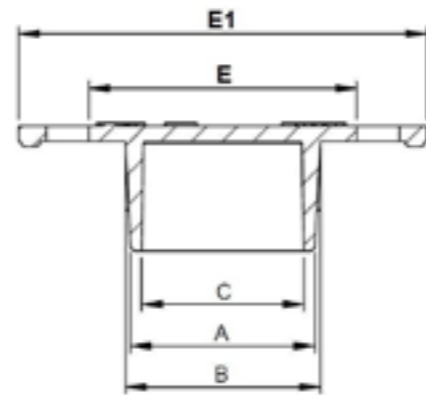

Excellent hold of plug thanks to the pull ring shape

Made of RECYCLE LDPE

Easy plugging in & removal

Properties

Standard colour: Red- Other colors may be available upon request

Standard material: RECYCLE LDPE
